

ABUNDANCE RAISED PLANTER BOX

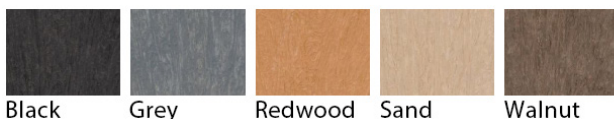

Model Number : AP-26 (2 ft x 6 ft), AP-46 (4 ft x 6 ft)

DESIGNER NOTES

Enjoy an abundance of compliments as flowers explode with colour and vegetables flourish in the Abundance Raised Planter Box. This no-maintenance modern design uses recycled plastic along with an aluminum frame and stainless-steel fasteners to give you decades of use without the splinters. The equivalent of 320 plastic food and beverage containers are used in the production of each planter box so nature remains happy and plants and vegetables are protected from toxic chemicals that can leach into the soil from pressure treated lumber alternatives. The planter box ships unassembled and within 10 minutes it can be set up and ready to be used for shoots and sprouts. At the end of growing season, if necessary, the box is easy to disassemble and relocate to another location or be stored away until spring. A raised bed has never looked so good.
