## DESIGNER NOTES

The Koble Backless Bench is a newly designed bench created to complement the Koble Bench, our version with a backrest. Backless versions provide a different type of seating surface primarily for applications where a client is looking to provide seating to take advantage of a 360 degree view. You can sit on either side of the bench and enjoy the view. The name for the bench was suggested by our client and we were happy to oblige. Koble, a Norwegian word which means unwind, unplug, connect, reconnect. It's the perfect name for a bench you can take a short break on or brief rest. Capped ends finish off the clean and modern design. Armrests give the bench a bold and stylish look giving it a bit of moxie on the path or park while taking up little space. Take a seat. Unwind. Unplug. Connect. Reconnect.
