

WEST END WASTE RECEPTACLE

Model Number : WETR-23

Wishbone
site furnishings

DESIGNER NOTES

The West End Waste Receptacle improves on a traditional round design and adds several functional features. The recycled plastic lumber slats provide years of maintenance free use. The locking side door and galvanized steel liner make regular cleaning & maintenance as simple as possible. The opening at the top can be custom-sized to any diameter based on the desired application. This straightforward model works well alongside many different styles of benches and picnic tables. Don't forget to add a bottle and can recycler to divert bottle and cans from the waste stream! Lots of folks will be happy you did.
